design · build · live

At Brightwater Homes, we're passionate about great design, great craftsmanship and their power to create homes and neighborhoods that live well every day. Each of our neighborhoods begins with a careful study of the land and community from which it is born, setting the stage for a holistic design process that combines thoughtful planning and authentic architecture with innovation, livability and meticulous detailing inside and out. With more than 80 years of combined architectural, design and building experience, our expert team guides each new homeowner through a uniquely personal and collaborative process. The result is a truly one-of-a-kind home each and every time – designed and built for the way you live.
